Yagi! It's the opening page in color! The first one ever! I'm so excited! Since I've never worked on such a huge illustration before, I was drawing it so slowly and painstakingly that it ended up taking us forever to finish it... It was also for the character popularity poll we were conducting so I had to include so many characters. Got it like the illustration?

We got some new characters again. There are so many of them in this episode... Rei is my favorite! (She's a boy!) I like Raven and Yuna's adorableness, too. (Laughs) The people here worked so hard to give it to me. I know it's pretty accurate... and I'm so glad that I got a chance to draw first with a ponytail. I like her outfit, too.

Q&A

Q.1. Don't Zoro or Lodi (people in the Knight of Horns) have lost interest?

A.1. Well, I think they do. I just haven't thought of any. Someone please give me some idea of I might encounter them once I've decided...

Q.2. What would you do if someone like Zoro or Lodi really disliked and confessed his love to you?

A.3. What? Oh, not my answer will be "yes"? That's so stupid! (== I feel :)

Q.2. When do you come up your story itself?

A.4. Hm... I usually think about it while I'm doodling. And when I'm wandering around or fantasizing, too.
